

progetto BOWLING e scuola

The Bowling and School project has been active in Italy for the past 18 years. It was put together by ASD Tutto Bowling in Milan to promote bowling among school children at their nearest bowling alley.

The target is children of secondary schools, which in Italy is divided into two stages, lower and upper secondary school, corresponding respectively to the first and second section of the project. The first section is then composed of children from 10 to 14 years of age and the second of teen-agers from 14 to 20 years of age.

The project is held during the academic school year with several appointments at the bowling alley and is formed as a tournament. Schools may choose an unlimited number of students to take part. In order to select the best students and therefore form the school team, two competitions are held. The best three boys and the best three girls will form a team to represent their school.

The school team will then play a final against all other schools participating. Children in the first section will play as a team whereas those of the second section will dispute a singles tournament.

Each winning team in each bowling centre will qualify for the International Final which will be held 28-29 May 2016 at Bowling Sport Park in Fano (PU), Italy. The possibility of participating in this project is open to both Italian and European schools.

INTERNATIONAL FINAL

BOWLING SPORT PARK IN FANO (PU)

Taking part is easy: the bowling alleys willing to participate can send a completed request form (asdtuttobowling@tiscali.it) as soon as possible, detailing which range the schools belong to (first section/second section). The priority list of teams and alleys will be based on the date of request sending.

The team members (3 boys and 3 girls for each section + 1 teacher) will be granted with the participation to the final matches, the stay in a hotel in Fano, the gala dinner on Saturday night and a brunch on Sunday morning. Transportation is at the expense of the school or the alley.

This initiative is not competitive, so the use of personal bowls is forbidden. The final program will be communicated in detail as soon as the list of participants is complete.

The following bowling alleys and schools in Italy will take part in

BOWLING AND SCHOOL PROJECT 2015-2016

Aosta and province	JOYVILLAGE BOWLING AOSTA
Bergamo and province	BOWLING MOZZO
